PROFESSIONAL SUMMARY

Our trusted Sweden-based fixer brings extensive experience in managing international TV productions, including location scouting, permit handling, and crew coordination. With deep local knowledge and strong relationships across Swedish production networks, they ensure smooth, efficient shoots while aligning with Hoodlum's creative vision and budgetary goals. Their bilingual team supports everything from logistics to on-the-ground troubleshooting, making them a reliable partner for productions of any scale.

MESSAGE FROM OUR FIXER

I'm Ida, your local fixer here in Sweden. My team and I specialise in delivering high-end live broadcasts and video productions for international clients, with a focus on technical precision, creative storytelling, and smooth logistics.

We're a crew of 13 based between Stockholm and Karlskrona, and we offer full production support across the country—from permits and location scouting to studio shoots and post. We're passionate about capturing the magic in every project, whether it's an intimate interview or a large-scale live event.

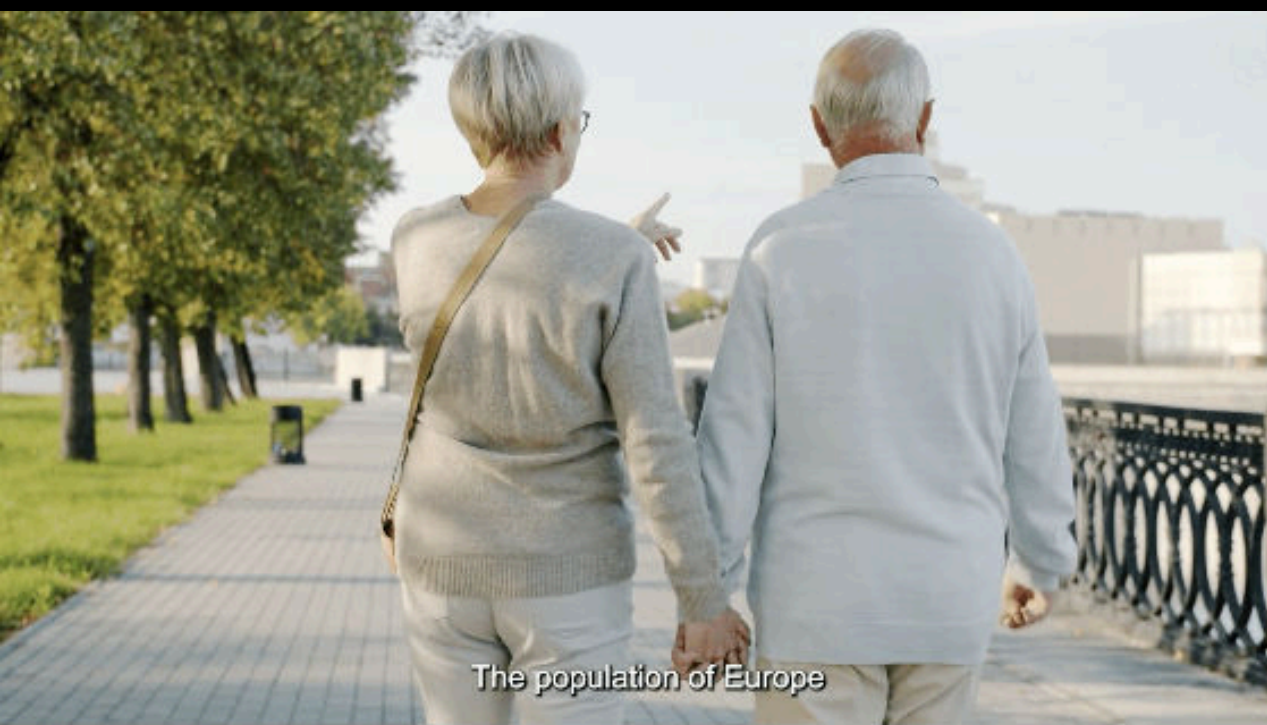

We also have access to fully equipped studios in both Stockholm and Karlskrona, which are ideal for anything from simple setups to complex multi-cam productions.

Looking forward to working together and bringing your vision to life in Sweden—with heart, professionalism, and a bit of local flair.
