PROFESSIONAL SUMMARY

With over 20 years of experience traveling across Norway by car, boat, and foot, I have developed a deep knowledge of the country's most stunning and hidden locations. My passion lies in showcasing the breathtaking beauty of Norwegian nature through production work—whether it's on skis in the mountains, paddling in fjords, or capturing the magic beneath the waterline. As a versatile and hands-on production manager, I offer services in local production, fixing, location scouting, drone operation, and underwater cinematography. I lead a flexible and efficient network of freelancers who can seamlessly adapt to changing conditions and production needs. We pride ourselves on going the extra mile to ensure every shoot is a success—no matter the challenge.

CORE SKILLS

- Location Scouting & Fixing (specializing in Norway)
- Production Management
- Licensed Drone Operator (DJI Inspire 3, Dual Operation)
- Underwater Filming & Photography
- Mountain & Fjord Expedition Filming
- Flexible, Multiskilled Production Crew Coordination
- Budgeting, Scheduling & On-Ground Logistics
- Extensive Network of Norwegian Freelancers
- Fluent in Adaptive Problem Solving & Client-Centric Service
